Retraction of: Z. Naturforsch. **58b**, 911–915 (2003)

On behalf of all co-authors, Dr. Tarek M. Abu Elmaati formally retracts this publication with his deepest apologies.

Dr. Graeme Jones (Keele University, School of Chemistry and Physics, UK), who is acknowledged in the paper for “spectra and analysis”, was neither involved in taking any of the spectra nor in the interpretation of any of the presented data. Dr. Jones had not been informed of this acknowledgement.

The Editorial Board of Z. Naturforsch B: Chem. Sci. wishes to express special thanks to the Cambridge Crystallographic Data Centre and to a member of the IUCr Journals Commission who provided the first evidence that the crystallographic data of compounds **12** and **13** were fabricated.
