

## **A New Pyoverdin from *Pseudomonas aureofaciens*\***

H. Beiderbeck, D. Risse, H. Budzikiewicz, K. Taraz

Institut für Organische Chemie der Universität zu Köln, Greinstr. 4, D-50939 Köln, Germany

Z. Naturforsch. **54c**, 1–5 (1999); received September 9, 1998

*Pseudomonas aureofaciens*, Pyoverdin, Siderophore

From *Pseudomonas aureofaciens* a new pyoverdin was isolated and its structure was determined by various spectroscopic methods and by partial degradation.
